EXPERIENCE

GENERAL ASSEMBLY | New York, NY
Web Development Immersive Student   Sept. 2013 - Dec. 2013
- Cultivated full stack web development skills in a full-time 12-week Ruby on Rails bootcamp
- Created a CRUD app to help keep tabs on restaurant recommendations from your friends.
- Developed a chrome extension and web app to help users save and retrieve lines they don't want to forget as part of a three-person team.
- Developed a chrome extension and web app to notify users when a desired item reaches their min. required price in Bloomingdales.

JPMORGAN CHASE | New York, NY
Associate - Asset Liability Management Analytics   Jul. 2012 - Sept. 2013
- Analyze and report on interest rate risk by products under various interest rate scenarios for CIO and Treasury Investment Portfolio to senior management on a weekly basis
- Model interest rate risk scenarios based on current economic conditions and forecast
- Prepare and analyze total firm's interest rate risk 10Q and monthly ALCO presentations
- Created step by step procedure guides to help new members and our technology teams to understand our weekly and monthly reporting processes

Financial Analyst - Product Control   Jul. 2011 - Jul. 2012
- Utilized VBA to enhance and streamline daily P&L and reporting processes
- Generated T+1 daily P&L reporting for Convertible Bonds desk
- Provided weekly and month-end financial reporting for JPM's fund of funds, Capital Markets Investment Program (CMIP)

Financial Analyst - Planning & Analysis   Jan. 2010 - Jul. 2011
- Prepared monthly reports to communicate and analyze financial results for General Services groups with an annual spend of $356MM
- Created consumable expense reports to identify and reduce excess technology spend by $1.5MM
- Collaborated with finance managers and used trend analysis to create General Services Budget
